# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
on JUNE 12, 1977
- Export Shipments in  
Current Marketing Year
- Daily Sales Reported  
JUNE 13 - 19, 1977  
--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of June 23, 1977 (based on reports from exporters for the week ending June 12 unless otherwise noted):

Wheat: Numerous countries, responding to increasing winter wheat supplies and continuing weak prices, added materially to their existing purchases. Principal buyers included Colombia, Japan, Korea, Nigeria, Algeria and the Philippines. A part of the Nigerian and Colombian purchases were reported last week under the daily system. Sales to unspecified destinations also recorded a significant increase. A pickup in buying could indicate that some buyers may figure that the market is near its seasonal low. Exports recovered from last weeks' disappointing level, but were still only slightly more than 400,000 MT.

Corn: Sales activity continued near the modest level of recent weeks. Japan, Italy and Mexico were the major buyers with lesser quantities reported to many other countries. Contract adjustment resulted in significant decreases in sales to the Netherlands and West Germany. The Netherlands was the only notable buyer for the 1977/78 marketing year (MY), purchasing 134,100 metric tons (MT). A sale of 125,640 MT to unknown destinations for MY 1977/78 was reported under the daily system. Exports registered a moderate increase after a two week slump.

Sorghum: Business was modest as Norway added to earlier purchases and sales to unknown destinations increased by 30,500 MT. The weekly export rate continued to deteriorate, totaling the slowest so far this MY.

Barley: As the new MY previews, sales activity has picked up from the pace of recent weeks. Korea and Japan both added to earlier purchases. Iraq's initial purchase for 1977/78 of 27,900 MT was reported and shipped. Optional origin sales showed little change as new sales to Algeria about offset the reduction resulting from the assignment of the U.S. as the origin on sales to Korea.

Rice: Sales activity was dominated by the current installment in PL-480 rice sales to Indonesia. This purchase of medium grain was spread over the current and next MY. The only other significant business was a 6,000 MT sale of medium or short grain rice to Liberia. Saudi Arabia added a small amount to their 1977/78 purchases.

Soybeans: Total 1976/77 sales of soybeans rose for the first time in 3 weeks. Sales were primarily to Japan, Mexico and the EC. Contract adjustments resulted in reductions in total sales to the Netherlands and Canada. Optional origin sales for the current MY were reduced by 114,600 MT, as sales to the PRC, the USSR and the EC were assigned to countries other than the U.S. Sales for the next MY increased by 82,700 MT through sales to Europe and Japan. Exports of 257,000 MT went to the EC, Japan, Israel and Canada. Exports have reached nearly 97 percent of the USDA projection for the 1976/77 MY.

Soybean Cake and Meal: Sales activity was limited. Principal sales were to Egypt and unknown destinations. Italy's purchases for 1977/78 increased as sales were switched from the current MY. The pace of exports picked up (85,700 MT) with Eastern Europe, Venezuela and Japan the principal destinations.

Soybean Oil: Sales activity slowed with the weeks highlights the switch of 10,800 MT from unknown destinations to India and the declaration of origins other than the U.S. on optional origin sales of 10,000 MT to the PRC.

Cotton: Current MY sales continue slow with Korea the only significant buyer. MY 1977/78 sales, principally to Korea, Taiwan and Romania remained good. Exports rebounded as 119,300 RB were lifted, 87 percent going to Asia.

Oats: Showed no significant activity.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS

1/ Includes contract tolerance adjustments. 2/ A separate purchase of a U.S. commodity from a foreign seller, not involved in a cancellation or buy-back of a previously reported sale. 3/ Includes decreases resulting from shifts in delivery period from one marketing year to another, changes from one commodity to another, "buy-backs" of all or part of a contract balance by mutual agreement, and unilateral cancellation by one party which could result in a contract dispute. 4/ Does not include exports for exporter's own account.

Data shown above may not add due to rounding.

## WHEAT EXPORTS IN REVIEW

Wheat exports for the marketing year 1976/77 -- June 1, to May 31, -- were 24.2 million metric tons, down from the 29.4 million metric tons last year's eleven month total. This was a decrease of almost eighteen percent. Unlike last years crops of wheat where many countries had poor harvest, this year's harvest increased in USSR, India, Canada, Australia and the Eastern European countries.

Exports varied from region to region this marketing year with the decreases resulting from some of our largest customers. India down 55 percent, Western Hemisphere 35 percent, and USSR 33 percent. Although increased exports were recorded from to European Community, Other West Europe, Africa, Other Asia and Oceania and Eastern Europe, they could not off-set the overall decrease.

Hard Red Winter wheat had the largest decrease in exports -- a drop of over four million metric tons or only 72 percent of the 1975/76 total. India, USSR and Brazil accounted for largest portion of this reduction with a combined decrease of almost 3.9 million metric tons. In addition, Hard Red Spring, White and Durum wheat showed decreases of 21 percent, 7 percent and 25 percent respectively. Only Soft Red Winter wheat had an increase of 441 thousand metric tons or about 10 percent higher than the previous marketing year.

On June 1, 1977, a total of 1.3 million metric tons in outstanding sales for wheat of U.S. origin were carried over from the previous marketing year. Almost 60 percent of the carryover came from Hard Red Winter wheat sales which totaled 764 thousand metric tons. Previously reported all wheat forward sales of 3.5 million metric tons for 1977/78 brought total U.S. origin sales to 4.8 million metric tons. The comparable total on June 1 a year ago was 5.7 million metric tons.
